PRELIMINARY PHASE-IN NOTICE (FOR 2010 CALENDAR YEAR)

Macoupin County
Anne L. Boehm
PO Box 20
E 1ST South St
Carlinville IL 62626

ER 03033

On February 27, 2009, the IMRF Board of Trustees adopted an optional phase-in plan for employer rates for 2010. Most employers will see their 2010 rate increase 10% from their 2009 rate. Because the Early Retirement Incentive (ERI) and the SLEP Enhancement employer rate components are set based upon a specific liability and are not directly impacted by investment returns, the ERI and SLEP component will be excluded from the cap calculation and will not be increased by 10%. Employers who were overfunded in 2007 and had a 2009 contribution rate less than the annual cost of the IMRF program will pay the full cost for their employees' current service (8.37% for the Regular plan, 12.58% for the SLEP plan and 18.02% for the ECO plan based on 2009 data). Because we will not be billing the actuarially calculated annual required contribution (ARC), the Phase-In Plan will extend beyond 2010.

Based upon a review of individual employers' funded status as of December 31, 2007, we believe very few employers will be overfunded as of December 31, 2008. We estimate that an employer would have to be 200% funded as of December 31, 2007 to be overfunded as of December 31, 2008. Employers who are over 100% funded as of December 31, 2008 will not be impacted by the phase-in plan.

Each year the phase-in plan is in effect, we will annually review employer rates in light of current year investment returns and other relevant factors. The percentage cap may change from year to year.

Below are the preliminary 2010 phase-in rates.

Regular

2010 Phase-in Employer Rate	8.35%
-----------------------------	-------

SLEP

2010 Phase-in Employer Rate	13.95%
-----------------------------	--------

ECO

2010 Phase-in Employer Rate	40.57%
-----------------------------	--------

In mid-April you will be provided the preliminary rate notice, showing the actuarially calculated rates (ARC), and a confirmation of the phase-in contribution rates. At that time, employers will be given the option to contribute the phase-in rate, the higher ARC rate, or some rate between the two. Employers who choose a rate less than the ARC rate will be required by generally accepted accounting principles to record a net pension obligation on its books in 2010. If you have any questions regarding this Phase-In Employer Rate Notice, please contact either Audrey Brown-Ryce (630 706-4246) or Corey Lockwood (630 706-4226) of the IMRF Employer Relations Unit.

Calhoun, Christian, Greene, Jersey, Macoupin, Montgomery, Morgan, Scott and Shelby Counties

The Illinois Workforce Partnership and the Illinois Department of Commerce and Economic Opportunity will host regional meetings for local decision-makers in response to the passage of the American Recovery and Reinvestment Act, also known as the federal stimulus bill. As a valued community leader, we are requesting your attendance at one of these regional meetings.

You will learn more about: the legislation as it pertains to funding for workforce development in Illinois, including summer youth employment and green activities; key issues that must be considered in planning how to best utilize stimulus funds; and the implications of these planning decisions for our state's job seekers and businesses.

You will have the opportunity make connections to various state programs that will distribute stimulus funding, and be able to ask questions important to your community and its ability to make the best use of ARRA funds.
