Best thing about living or working in Macoupin County? The best thing is that it feels that we are one big family. Being from communities such as ours gives you the opportunity to know everyone and not just be a sea of faces. Everyone reaches out to help each other. You cannot get the support like Macoupin County has in the big cities. It is fantastic to be able to walk into every local businesses and have them know you by your first name and appreciate your business. There are many talented people in Macoupin County and the way that everyone works together makes us one of the richest counties in the U.S. Personally it is nice having the extra eyes on my kids and knowing there are people watching over them that know and love them as well. It is a feeling of achievement being able to give back to the community.
